

Welcome Carolina Bronze Sculpture

Carolina Bronze has been located on Maple Springs Road for 20 years and now they can officially call Seagrove home. The Town Council at the February 2 meeting formalized their voluntary annexation after a public hearing and approval. Seagrove is fortunate to have such a state of the art facility in our community.

Carolina Bronze is a premier fine arts bronze foundry serving artists, architects, museums and non-profits throughout the world. They specialize in fine arts bronze casting and fabrication, and use both traditional and advanced digital tools.

Ed and Melissa Walker own Carolina Bronze Sculpture. Their residence is also located on the property. Their company employs eleven local residents. The works created at their facility have been installed in many locations around the country and internationally. Seagrove is privileged to have one of Ed Walker's personal creations, a contemporary metal sculpture titled, "Balancing Time II" installed on the corner at the stoplight in Seagrove. They plan to install several other sculptures in the downtown area in the near future.

Carolina Bronze Sculpture Garden

Carolina Bronze is also developing a natural landscaped area overlooking a 1.25-acre pond as a sculpture garden. They intend to create a contemplative place for walking and exercise that will be open to the public and community visitors. There will be benches, picnic areas and sculptures donated, acquired, and loaned, that represent all forms of 3D media. It should be completed by August 2016, in time for the Tri-State Sculpture Conference in October 2016.

Tri-State Sculpture Conference

Carolina Bronze Sculpture in Seagrove and STARworks in Star sponsor the 38th Annual Tri-State Sculpture Conference. The conference will be held October 6-9, 2016. There will be exhibitions and educational opportunities here in Seagrove, Asheboro and in Star. Visitors to the conference will tour the NC Zoo Sculpture collection, The NC Pottery Center and the Seagrove area potteries.

Thank you Carolina Bronze Sculpture for creating this opportunity to help Seagrove's recognition and growth. We are glad to have you officially part of the community.

Unanimous Vote for Alcohol Referendum

Tuesday, February 16, The Town Council called a special meeting to decide if the town commissioners should pass a referendum that would eventually allow the voters of Seagrove to decide if they want beer and wine to be sold in town. The majority of the townspeople who spoke at the meeting felt it was important to allow Seagrove voters an opportunity to decide for themselves. The vote was unanimous for the referendum. All the commissioners agreed as a democratic council the voters of Seagrove deserve the right to decide. It is uncertain when this will be on the ballot.
